Subject: Approval of RightPly Plywood Underlayment

Congoleum Corporation has completed multiple compatibility tests with RightPly® Premium Underlayment, manufactured by Patriot Timber Products. We have found this product to be a high-quality plywood underlayment panel. RightPly® is fully compatible with, and acceptable when used with all Congoleum resilient flooring products; it meets the underlayment requirements outlined in the Congoleum Professional Installation Guide. We authorize the use of the Congoleum® name in your marketing and advertising materials. The responsibility for offering all warranties and/or performance guarantees rests with the manufacturer(s) of the installation products used and not with Congoleum. Congoleum makes no recommendations for installation, but relies on the installation recommendations provided by Patriot Timber Products. Any and all warranty issues related to RightPly® Premium Underlayment are the responsibility of Patriot Timber Products and not Congoleum.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Gallagher", with a stylized flourish at the end.

Dan Gallagher
